HARDIK BENIWAL

AI/ML Engineer
+91 87916 14937 | hardikbeniwal3119@gmail.com | linkedin.com/in/hardikbeniwal31 | github.com/beni3119
Bengaluru, India (open to UK & EU relocation) | **Visa:** Requires Skilled Worker sponsorship (held UK Student Visa 2024-2025, MSc Birmingham)

PROFILE

AI/ML Engineer with production experience in Generative AI, Retrieval-Augmented Generation, NLP, and Computer Vision on AWS. MSc in Data Science & AI (University of Birmingham, UK & IIT Madras, India). Track record of fine-tuning LLMs and Vision-Language Models, building scalable MLOps pipelines, and shipping measurable business impact. Foundations in Responsible AI and Quantum Machine Learning.

TECHNICAL SKILLS

Languages: Python, C++, SQL, Bash
GenAI & LLMs: RAG, LangChain, LlamaIndex, AWS Bedrock, OpenAI & Anthropic APIs, Hugging Face Transformers, PEFT, LoRA, QLoRA, Prompt Engineering, Vision-Language Models (VLM), Fine-tuning, Evaluation
ML & Deep Learning: PyTorch, TensorFlow, Keras, Scikit-learn, Transformers, CNNs, ViT, LSTM Autoencoders, Isolation Forest, Anomaly Detection, Time-Series, OpenCV
MLOps & Cloud: AWS (SageMaker, Bedrock, ECS, ECR, SQS, Lambda, S3, OpenSearch), Docker, Kubernetes, MLflow, DVC, FastAPI, Streamlit, Git, GitHub Actions, CI/CD
Data & Other: PostgreSQL, MySQL, MongoDB, OpenSearch (vector), FAISS, Tableau, Pennylane (Quantum ML), Responsible AI, Explainability

PROFESSIONAL EXPERIENCE

AI/ML Engineer | *Resolve Tech Solutions* | Bengaluru, India **08/2025 - Present**

- Designed and shipped an end-to-end anomaly-detection platform (Isolation Forest + LSTM Autoencoders), reducing false-positive alerts by **~35%** across **10+** metrics and processing **2M+** telemetry events/day.
- Built a RAG engine for IT-ticket summarisation and recommendation on AWS Bedrock + OpenSearch + Streamlit; indexed **20K+** tickets, cutting mean resolution time by **~40%** for **30+** support engineers.
- Productionised real-time ML services on AWS (SageMaker, ECS, ECR, SQS) serving **200+ req/s** at **<120 ms** p95 with **99.9% uptime**; CI/CD via Docker, GitHub Actions, MLflow and DVC
- Recognised with the company-wide **Townhall Award** for production-grade AI delivery within the first 6 months.

Generative AI Research Intern | *Bosch* | Bengaluru, India **02/2025 - 07/2025**

- Fine-tuned Vision-Language Foundation Models for vehicular automation across encoder-only, decoder-only, layer-freezing, and PEFT (LoRA) setups on a **4x A100** multi-GPU rig.
- Benchmarked **5+** VLM variants on internal driving datasets; improved **BLEU by ~18%, ROUGE-F1 by ~14%, and METEOR by ~11%** over baseline while cutting fine-tuning compute **~60%** via PEFT.

Research Intern | *Centre for Responsible AI (CeRAI), IIT Madras* | Chennai, India **12/2023 - 01/2024**

- Contributed to Meta's AI-ethics initiative; analysed FLAN architecture for explainability and authored *"Ensuring Ethical Implementation of LLMs in EdTech"*.

AI Intern | *Green Aadhaar* | Remote **01/2024 - 03/2024**

- Led a real-time face-recognition attendance system in **OpenCV** + deep learning, achieving **90%+ recognition accuracy**; also built a real-time waste-detection model and explored AI for carbon management.

SELECTED PROJECTS

Quantum-Enhanced Kernelised Contextual Bandits (MSc Dissertation, UoB) - Designed quantum bandit algorithms in Reproducing Kernel Hilbert Spaces using Pennylane; benchmarked quantum vs classical kernels with improved regret bounds. Supervised by Dr. Sharu Jose.

Melanoma Detection System (HAM10000) - Benchmarked **10** deep-learning architectures on **5K+** dermoscopic images (7-class); deployed best model (**~92% accuracy**) as a Streamlit app.

EDUCATION

MSc, Data Science and Artificial Intelligence (Joint Degree) - *University of Birmingham, UK & Indian Institute of Technology Madras, India* - GPA: 7.12/10 2023 - 2025

BTech, Computer Science and Engineering - *Shri Mata Vaishno Devi University, India* - GPA: 7.89/10 2018 - 2022

PUBLICATIONS

"Role of AI in Revolutionising EdTech", *Dimensions of Innovation and Technology in Rising India*, ISBN 978-93-6135-475-5 (June 2024).
